CA61 Pilot Paper Page 1 Out of 4
QUESTION ONE
(a) Describe the stages involved in the National Government budget process as provided in the Public Finance Management Act 2012 or equivalent legislation in your country. (10 marks)
(b) (i) Explain the relevance of transparency and accountability in the context of public debt management in your country. (4 marks)
(ii) Discuss the importance of sound public debt management. (6 marks)
(Total: 20 marks)

QUESTION TWO
(a) Outline the information that is required to be provided by a contracting authority within the framework of the public private partnership (PPP) when preparing a project proposal. (8 marks)
(b) Explain six functions of the Public Private Partnership Unit (PPPU) as established under the Public Private Partnership Act 2013 or equivalent legislation in your country. (12 marks)
(Total: 20 marks)

QUESTION THREE
(a) Explain how tax planning could be undertaken in the context of:
   (i) Income from investments. (2 marks)
   (ii) Capital structure decisions in corporate entities. (2 marks)
(b) The promoters of Junefair Company Ltd. are considering the best source of financing for their new company.

The promoters are aware of the two main financing avenues for any company: equity financing and debt financing. They already have raised equity capital amounting to Sh.500 million as their base capital which falls short of their capital requirement of Sh.1 billion. They have approached a consultant to give them advice on how to source the additional Sh.500 million that they require. The consultant has assembled his analysis into two mutually exclusive financing sources based on the promoter’s request as follows:

Option - A (Equity only)
- Base capital - Equity: Sh.‘000 500,000
- Additional capital - All equity: Sh.‘000 500,000
- Total: Sh.‘000 1,000,000

Option - B (Debt only)
- Base capital - Equity: Sh.‘000 500,000
- Additional capital - Long term debt: Sh.‘000 500,000
- Total: Sh.‘000 1,000,000

It is assumed that both the additional equity and additional debt will require an annual payment of Sh.40 million and Sh.50 million for dividend and interest respectively every year.

Assume that the profit before interest and taxes that the company would post each year is Sh.110 million. The corporate tax rate is 30%.

Required:
Suggest, from a tax planning perspective, the best source of additional financing that the consultant should recommend (4 marks)

(c) Violet Auma has been offered a job with Apple Electronics (K) Ltd., a foreign company dealing with distribution of smartphones and computers in the East African region. She is due to report on 1 January 2016.

Her terms of employment provide for the following emoluments:
1. She would get a basic salary of Sh.450,000 per month effective from 1 January 2016.
2. The company would make the following additional payments to her per month:
   - Home to office car allowance of Sh.28,500. However, she would be given the option of using a company car. The car that would be allocated to her would be of 2500cc which the company would purchase at a cost of Sh.3,500,000.
   - House allowance of Sh.80,000 per month. However, the company gives her the option of moving to a company house from the commencement of her employment. The house would be rented by the company at Sh.80,000 per month.
3. She would, like all other employees, enjoy the company's pension scheme into which the company would pay Sh.25,000 monthly for her benefit. She would also have to contribute a similar amount into the scheme.
4. An end of the year bonus amounting to Sh.35,500 would be paid to her each year. She would however be given the option of taking a gift of a phone from the company worth the same amount.
5. She would also be eligible to be included into the company's attractive medical scheme which only covers management staff. The amount of the benefit is capped at Sh.1,500,000 per year. She however has the option of a free-for-all claim-based medical scheme operated by the employer. The scheme is capped at Sh.1,000,000 per year.

**Required:**
Recommend the best option for Viloiet Auma based on the above information. (12 marks)

**Total:** 20 marks

---

**QUESTION FOUR**

(a) Multi-national corporations (MNCs) that have cross-border inter-company dealings (like purchases and sales) can deliberately move profits from one tax jurisdiction to another by manipulating the transfer price. Such companies, if left unchecked, would make inter-company transactions at prices that may lead to low profits or losses in countries with high tax rates.

**Required:**
Explain the documentation and disclosure requirements imposed by your country to address the above challenges. (5 marks)

(b) One major shortcoming of globalisation is that it provides the incentive for tax competition among countries.

In the context of the above statement, explain the meaning of the following:

(i) Tax competition. (3 marks)

(ii) Tax haven. (3 marks)

(c) Outline five harmful effects of tax havens. (5 marks)

(d) Explain four circumstances under which goods are deemed to have been dumped in your country. (4 marks)

**Total:** 20 marks

---

**QUESTION FIVE**

(a) The main focus of bilateral tax treaties is the elimination of double taxation and fiscal evasion.

Explain the meaning of the following as used in the context of tax treaties:

(i) Double taxation. (2 marks)

(ii) Fiscal evasion. (2 marks)

(iii) Treaty shopping. (2 marks)

(b) Rahab Tola, who is a Kenyan, was employed in the United Kingdom (UK) for the first 6 months in the year 2014 for which she was paid a total of £12,000. She later moved to Kenya where she was employed at a salary of Sh.2,400,000 for the 6 months to the end of the year 2014.

The UK authorities had charged Rahab Tola a tax on her pay amounting to £2,200.
Assume that the applicable foreign exchange rate was Sh.140/£. Kenya has a double taxation agreement with United Kingdom.

**Required:**
Calculate the amount of double taxation relief due to Rahab Tola for the year 2014. (4 marks)

(c) China Construction Company (K) Ltd. has been engaged in the building and construction industry for many years. There has been an on-going dispute with the revenue authority as to the amount of value added tax (VAT) that the company is liable to pay.

You have been provided with the following details relating to the company’s transactions:

<table>
<thead>
<tr>
<th>Purchases</th>
<th>Delivery date</th>
<th>Invoice date</th>
<th>Invoice amount (Sh.)</th>
<th>Payment date</th>
</tr>
</thead>
<tbody>
<tr>
<td>7. 200 tons of cement</td>
<td>27 April 2015</td>
<td>3 May 2015</td>
<td>3,712,000</td>
<td>2 August 2015</td>
</tr>
</tbody>
</table>

The above amounts are inclusive of VAT at the standard rate of 16% where applicable.

**Additional information:**
1. The company had negotiated a contract for Sh.45,000,000 for which it received a progress payment of Sh.18,000,000 on 25 June 2015. These amounts are exclusive of VAT. The invoice had been raised earlier on 3 May 2015 based on the Architect’s certificate for the value of work certified.
2. The company had also won a labour-only contract for Sh.12,500,000 (exclusive of VAT) for which an installment payment of Sh.4,000,000 was received on 9 May 2015 ahead of the completion on 17 June 2015. The invoice was raised for full payment on completion. By end of August 2015, the balance of the payment had not been received from the client.

**Required:**
(i) Advise on the correct VAT position for the company for the period between May 2015 and August 2015. (6 marks)

(ii) Comment on any information that you have not used in (c) (i) above. (4 marks) (Total: 20 marks)
